COLORED REPEATERS!

Their Attempt to Get in Their Work at New York is Frustrated--- Betting on the Election.

Special to THE SENTINEL.

NEW YORK, Oct. 26.—The first arrests in the ranks of the colored repeaters were made yesterday by Captain Reilly, of the Nineteenth precinct. Three arrests have already been made in the neighborhood of Seventh avenue, Twenty-eighth and Twenty-ninth streets and the headquarters of the colored population of the city up town. The names of those arrested are Cousins, Barrett and Johnson. Cousins and Barrett were examined at the Jefferson police court, before Justice Gorman, and committed for trial at the court of general sessions. Their cases will be sent to the grand jury within a day and they will be placed on the calendar of the following day. Captain Reilly in all three cases has secured evidence that will secure conviction.

The Johnson matter will come up for examination to-day at 2 o'clock, at the Jefferson market police court, and there is no doubt that it will result the same as the others. It is harder to find the offenders against the registry laws than heretofore, because the terror inspired by the prompt conviction of Gordon has frightened them badly and caused the imported republicans to leave the town by hundreds. The fact is that most of these men have been closely watched by detectives since their arrival in New York and no small part of the agents trusted by the republican headquarters are perfectly ready to take part in exposing the villianous scheme. District Attorney Fellows two months ago set in motion the machinery of the law to secure a pure and free election and the Hessian hirelings are permitted to come here just as rats are permitted to walk into a trap. The arrangements of the district attorney, United States marshal, Superintendent Murray and Inspector Byrnes are admirable, and everything has worked just exactly as desired. No amount of cunning or corruption can effect the fairness of this election, and the money the republicans have squandered on their Hessian forces, has been thrown away as completely as that they have locked up in bets. On the part of the democrats, the working up of these cases was intrusted to Assemblyman Martin, the sergeant-at-arms of the national democratic committee, who co-operated throughout with Captain Reilly and the police.

The meeting of the county democracy at the Cooper Union last night was a success that will rank with any of the preceding demonstrations of the campaign. The leading speech of the evening was made by Congressman Crain, of Texas, and was devoted exclusively to the discussion of the national issues, particularly the relation of tariff reform to the industries and commerce. Mr. Crain is very much at home in New York, having been a student in St. Francis Xavier college here and lived in the city during several years of his earlier life. His eloquence and the extremely practical character of his remarks greatly pleased his audience.

The republicans have practically run away from betting on the presidential contest. Last evening, at the Huffman house, Mr. John Mullen, of Brooklyn, offered to bet $2,000 to $1,000 that Cleveland would carry New Jersey, and $1,000 to $500 that he would carry New York state, and $2,000 even on the general presidential result. Capt. William M. Conner offered to bet $10,000 to $9,000 on the general result. None of these bets were taken. Mr. Mullen bet with a republican, named Pangborn, $200 to $50 that Hill would be re-elected governor of New York.

A HUSBAND'S LOVE.

A Massachusetts Jury Places its Value at $30,000.

BOSTON, Oct. 26.—In the suit of Mrs. Myra Beals against Dr. Augustin Thompson, of Lowell, for $50,000 damages for having alienated her husband's affections, the jury brought in a verdict for the plaintiff this morning, awarding her $30,000 damages.

DEATH IN A FIRE.

A Night Watchman Perishes in a Big Fire at Baltimore.

BALTIMORE, Oct. 26.—The packing house of Platt & Co., in the extreme southern part of this city, was partially destroyed by fire early this morning. John Jones, aged sixty-one years, employed as night watchman, was burned to death before help could reach him. The loss on the building and machinery is about $10,000 and is insured.

ATTORNEY GENERAL WEBSTER.

He Continues His Speech in the London Times Case.

LONDON, Oct. 26.—TheParnell commission again listened to Atttorney General Webster's presentation of the *Times* case to-day. The speaker continued to recite a catalogue of the outrages supposed to be traceable to the members of the league and then quoted from the speeches of Mr. Dillon and other Parnellites to prove their support of the plan of the campaign.

He dealt in succession with a series of utterances made by Messrs. William O'Brien, Cully, Cox, Kenny and Matthew Harris, to show their sympathy with the outrages, and he intimated his intention to deal at length with the violent orations of the league members made in County Clare during the years of 1885, 1886 and 1887.

Yellow Fever.

NEW YORK, Oct. 26.—Considerable alarm is occasioned over the death, in St. John's hospital, in Brooklyn, of Capt. John Illard, of yellow fever. The health authorities assert that there is no cause for fear, as every precaution possible to prevent the spread of the disease has been taken. The steamer Carrenzo was immediately taken to the lower quarantine, where she will be thoroughly fumigated.

Judge Thurman.

LIMA, Ohio, Oct. 26.—Judge Thurman and Speaker Carlisle were the central figures in the party that occupied Col. C. L. Brice's private car, as it pulled out of Cincinnati, at 7:45 this morning, in the rain.

Crowds greeted them along the line. At Troy about 300 people cheered the judge.

Death of Chas. Amann.

(Communicated.)

Last night, at half past 1 o'clock, occurred the death of Charles, sod of Mr. and Mrs. Louis Amann, at the residence of his parents, No. 15. East Washington street, at the age of twenty-one years. Charles, who has been in the employ of the Fruit house for a number of years past, and who, by his gentlemanly, genial and kind disposition, has been able to rise from a mere cash boy to one of the most important positions in that vast establishment and who, to his confreres in the store, was known by the appelation of "Smiling Charley," has left by his death a vacuum which it will not be an easy matter to fill. Obedient to his superiors, obliging to his comrades, ever ready to help those whose knowledge of affairs was beneath that which he possessed, his friends will miss him as much as his sorely afflicted parents. To his bereaved parents we will say that He who guides the birds in their southern flight will pour the ever-healing Balm of Gilead into the open rent and to our dear friend Charles we will say a long and last farewell.

MUST GO TO PRISON!

The Son of the Late General Manager Talmage, of the Wabash, is Convicted of Murder.

ST. LOUIS, Oct. 26.—James Talmage, son of the late A. A. Talmage, general manager of the Wabash railway, was yesterday convicted of murder in the second degree, at Keytesville, Mo., for killing a telegraph operator named C. P. Tidd, one year ago. He was sentenced to 21 years in the penitentiary.

A BRUTE GETS HIS DESERTS.

ITHICA, N. Y., Oct. 26.—Richard Barber was to-day found guilty of murder in the first degree. On the night of the 16th of last March he went to the home of an old couple, named Mason, and during a chat with Mr. Mason, he felled him by blows on the head from behind. Barber then went to Mrs. Mason's bedside and clubbed her to death, afterwards setting fire to the house and burning the body of his victim. The old man escaped from the house but has become insane as a result of his injury.

CITY BONDS SOLD.

J. W. Gilbaugh, of New York, Purchases the New Issue.

This morning, the city officers consumated the sale of the new reissue of the old city bonds to J. W. Gilbaugh, of New York, who pays par for them, with interest and one-eighth per cent. premium.

The guarantee check of $500 given by Harris & Co., of Chicago, has been collected and will be turned into the city treasury. The firm had some bond transactions here and the check was sent to them in lieu of the money. This with the premium and interest make the bond sale very creditable.

SENATOR BAILY.

A Pleasant Compliment for the Speaker This Evening.

The following telegram from Editor Louthain, of the Logansport *Pharos*, is certainly a compliment to Senator Baily, who speaks at the Academy to-night:

LOGANSPORT, Ind., Oct. 25.

To the Editor of THE SENTINEL.

Senator Baily has just made us one of best speeches of this campaign. You should have a large audience of laboring men for him.

A Woman Shoots Herself.

RICHMOND, Ind., Oct. 26.—Mrs. Al Simonds attempted suicide by shooting herself in the breast. The ball has not been found, but she is still alive and seemingly does not suffer a great deal. She was recently returned from the Central insane asylum pronounced cured, and says she did this in a fit of the blues. She went crazy over the loss of a child. Her husband is employed in Col. John F. Miller's suburban place.

Attempted Suicide Over a Love Affair.

ANDERSON, Oct. 25.—Wilson Heagy, a young man of about twenty-five, took poison with suicidal intent last Monday. Disappointment in a love affair is supposed to have been the cause. His recovery is hardly possible. He is a son of Weems Heagy, former treasurer of this county, and resided with his parents a few miles northeast of this city.

Leaves for New York.

WASHINGTON, Oct. 26.—The president will leave here this afternoon for New York, to review the business men's parade, which takes place there to-morrow. He will be accompanied by Mrs. Cleveland, Mrs. Folsom, Colonel Lamont. He will be the guest of Secretary Whitney.

PROBABLE MURDER.

Engineer Wm. Smallwood Murderously Assaulted by Highwaymen

Last Sunday night Wm. Smallwood, a Nickel Plate engineer, was murderously assaulted by highwaymen at the end of the railroad bridge which crosses the St. Mary's river near Orff's mill. The matter escaped the attention of the police, or was suppressed, although the man lies at death's door and was reported dead last night.

Mr. Smallwood was going to his boarding house, in Nebraska, Sunday evening last and proceeded along the railroad track. At the west end of the St. Mary's river bridge he was leaped upon by three highwaymen, and one of the robbers struck Mr. Smallwood a murderous blow with a coupling-pin.

His one cry for help attracted the attention of the yard men and at their approach the would-be murderers fled, without robbing their victim.

Mr. Smallwood was conveyed to his home and has been unconscious ever since. His skull is probably fractured, and the chances of recovery are largely against him.

His wife arrived to-day from Bellevue and is at his bedside.

Who will apprehend the murderers?

The most remarkable meeting was held at the Christian church, corner of Jefferson and Griffith streets, last night. Many were baptized, and more to follow. The incident in the electric light works whereby Miss Ida Jackson was suspended, has no political significance so General Manager McDonald assures us. The young lady was discharged for going to the Thurman rally, but leave of absence had not been given her and according to rules she lost her place. Mr. Al Brentzerhoff, who lost his position because the young lady was discharged, is a republican. This is the situation.

The pictures which were taken of the Tippecanoe club on the morning previous to their departure for Indianapolis, to participate in the parade held there a week or two ago, have been delivered to the members. It is a fine piece of art and the handsome boys present an attractive appearance in their silk hats and overcoats. The Tippecanoe club is a body of our best young gentlemen, and although they are republicans, we desire to say that the city is proud of them.

FRUIT HOUSE.

No Universal Remedy

has yet been discovered; but, as at least four-fifths of human diseases have their source in **Impure Blood**, a medicine which restores that fluid from a depraved to a healthy condition comes as near being a universal cure as any that can be produced. **Ayer's Sarsaparilla** affects the blood in each stage of its formation, and is, therefore, adapted to a greater variety of complaints than any other known medicine.

Boils and Carbuncles,

which defy ordinary treatment, yield to Ayer's Sarsaparilla after a comparatively brief trial.

Mr. C. K. Murray, of Charlottesville, Va., writes that for years he was afflicted with boils which caused him much suffering. These were succeeded by carbuncles, of which he had several at one time. He then began the use of Ayer's Sarsaparilla, and after taking three bottles, the carbuncles disappeared, and for six years he has not had even a pimple.

That insidious disease, **Scrofula**, is the fruitful cause of innumerable complaints, **Consumption** being only one of many equally fatal. Eruptions, ulcers, sore eyes, glandular swellings, weak and wasted muscles, a capricious appetite, and the like, are pretty sure indications of a scrofulous taint in the system. Many otherwise beautiful faces are disfigured by pimples, eruptions, and unsightly blotches, which arise from impure blood, showing the need of Ayer's Sarsaparilla to remedy the evil.

All sufferers from blood disorders should give Ayer's Sarsaparilla a fair trial,—avoiding all powders, ointments, and washes, and especially cheap and worthless compounds, which not only fail to effect a cure, but more frequently aggravate and confirm the diseases they are fraudulently advertised to remedy.

Ayer's Sarsaparilla,

AWAY with trusts and robber taxes.

VOTE against unnecessary taxes. That is all the democrats ask.

REPUBLICAN intimidation may silence men, but it will not win their votes.

EVERY man who votes the republican ticket, votes to perpetuate a system of unnecessary taxation that robs him of the fruits of his labor.

A SYSTEM of cruel intimidation is in vogue in some of the Fort Wayne manufactories, not by the proprietors or managers, but by petty republican bosses.

SENATOR BAILY, who is to address the citizens of Fort Wayne to-night, is one of the representative labor leaders of the state and deserves a respectful hearing.

JUDGE GRESHAM wraps himself in his sacred judicial robes and mildly remarks: "I am for Harrison." The judge, like the *Gazette*, is endeavoring to keep up appearances.

THE workman who paid thirty-six cents a gallon for linseed oil to mix with his paint a year ago and pays sixty-five cents a gallon to-day, will understand what a trust is.

ORTH STEIN, whose home is at Lafayette, Ind., and a brilliant journalist, but a murderer, forger, and all around scamp, played a Baltimore physician for $250 the other day. This young man, although of good family, is a consumate scoundrel.

THE Toledo natural gas plant has almost paid for itself under a price scedule similar to the one Fort Wayne is now asked to accept. The cost of gas in the pending ordinance is beyond all reason and the stockholders ought to realize the fact.

HON. P. S. O'ROURKE will expound tariff doctrine at the Academy to-morrow night and unquestionably he will set at rest the republican boast that he and his friends are secretly opposing Judge McClellan. There never was any sham or pretense about Mr. O'Rourke's politics. He is either for or against a man.

THE Corunna *Headlight* has the following worthy notice concerning the democratic candidate for congress: "Judge Charles A. O. McClellan commenced life at the bottom of the ladder, and like many other poor boys under the free and unrestrained privileges of our own glorious institutions, by persistent energy, unremitting toil and frugality, he has worked himself up to an honorable place among his colleagues. A position that he could not have successfully attained without those ennobling attributes that commend him to the voters of the Twelfth district."

And Captain White defended the linseed oil trust. Here is a problem for the Knights of Labor to solve: "Will they vote to return to congress a champion of trusts and monopolies?"

GOING BACK TO ORIGINAL AMERICANISM.

"REDSKIN LIKE FREE FIRE WATER,
REDSKIN NO LIKE CLOTHES."

(FOR FURTHER PARTICULARS READ THE SENATE TARIFF BILL.)

THE TARIFF AND TRUSTS.

It is stoutly maintained by all high tariff men—except perhaps Mr. Blaine—that the tariff has nothing to do with trusts.

What then is the true relation of a high tariff to these trade combinations? There is a very close connection between the two things and we want to point it out so that every one may understand it.

What is the object of a protective tariff? Any protectionist will tell you that its object is to shut out foreign competition. Our manufacturers can not compete with foreigners, so we have to have protection against these same foreigners. Of course, the higher the tariff, the more complete is th protoection. And if the foreigner be absolutely shut out of the home market, the protection is perfect. That is the whole theory of protection.

Now then what is the object of the trust? Identically the same thing. A number of gentlemen engaged in any given industry, get together and resolve that competition is a bad thing; that it is cutting prices down to a desperately low figure, and so ruining trade, and they resolve therefore that they will not compete any more, but will "combine" so that they can limit production and maintain prices. So they form a trust.

But they find a large part of their work done for them already. The tariff is so high that foreign competition is quite impossible. They don't have to look out for that. A kind government has done that work for them. So their task is comparatively easy. It is simply a matter of agreement among themselves. They just have to resolve to quit competing, and the thing is done. They control the whole supply in this country, and a tariff running all the way from some 25 to 180 per cent. makes it rather difficult for any one to get anything in from abroad, and allows a truly liberal latitude for them to manipulate prices in.

Suppose there were no tariff at all on these "trusted" articles, Isn't it clear that the trust business would be a great deal more difficult to carry on? With the supplies of the world to draw on, it would not be nearly so easy to "limit production or to maintain prices." There would be danger of competition from every quarter. The "combine" would have to be very large, and it would have to be international. It would no longer be a little matter of domestic competition to be guarded against, with all other possible competition killed off by law, but there would, as we have said, be a world-wide competition to be taken into account. It is conceivable that the thing could be done, but as we have said, it would be very difficult of accomplishment; the organization when formed would be large and unwieldy, and its life would be extremely uncertain. Freedom is the deadliest foe that monopoly can have. A conspiracy for plunder or murder to be effective, must have but few concerned in it.

It is just as though there were a dozen men shut up in a room to which outsiders could not obtain access. If four of the strongest of these men had something which the others could not do without, it is clear that, by acting together they could exact what terms they pleased from the weaker ones. They would have a most beautiful monopoly; the "trust would be a dazzling success." If now one of the sufferers should knock a hole in the wall, and thus open up communication with hundreds of people outside who could supply his wants, what would become of the "trust?"

That is what we want to do—knock a few holes in our high tariff wall; and that it what Senator Sherman meant, when he suggested that the way to get at the trusts was through our revenue laws. The senator is right.

The tariff, then, whatever else it may or may not do, clearly protects trusts.

MAKE NO MISTAKE—If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other. Hood's Sarsaparilla is a peculiar medicine, possessing, by virtue of its peculiar combination, proportion and preparation, curative power superior to any other article of the kind before the people. For all affections arising from impure blood or low state of the system it is unequalled. Be sure to get Hood's.

The experience of years furnishes the most convincing evidence that thousands of lives are annually saved by the use of Ayer's Cherry Pectoral. It speedily cures all affections of the throat, bronchial tubes and lungs.

TIPS FROM THE BUSY CENTERS.

The Day's Doings Around the Railroads and Manufactories of the City.

The Brotherhood of Locomotive Engineers are still in session at Richmond, Va.

The switchmen are having a big strike on the Rio Grande railroad at Pueblo, Colorado.

The boys at the Bass works still cry loadly for an electric light at the railroad crossing on Hanna street.

W. L. Coutts, brakeman on the Pittsburg road, in spending a few weeks among relatives at Bucyrus, O.

John Gust has been transferred from the blacksmith shops of the Bass works to the shops in the upper foundry.

The machinsts in the Bass works are now working on piece work and some of the boys are making handsome wages.

Yesterday the Jenney electric light company shipped an arc plant to Kansas City and an incandescent plant to Nova Scotia.

W. H. Williams, traveling freight agent of the Atchinson, Topeka and Santa Fee railroad, was in the city yesterday.

The Electric Light and Power company are making arrangements for the erection of their new building near Rudisill's dam.

The Wabash is expecting to take big crowds to the republican rally at Peru next Tuesday. The fare for the round trip will be $1.15.

A large number of the shopmen will turn out to-night at the Academy to hear State Senator Bailey speak on the issues of the day.

Mr. Chas. H. Mixer, formerly of this city, but now traveling passenger agent of the Vandalia, with headquarters at Terre Haute, was in the city yesterday.

A number of the railaoad men in the city have expressed their intention of going to Lima this afternoon to attend the big democratic rally there this evening.

There are 28,000 railroad men in the state of Iowa and the latest news from that great republican stronghold is that its electoral vote will be cast for Cleveland and Thurman.

Joseph Nichter, of the Wabash shops, has made a wager of a new hat with Henry Poyser, machinist in the same establishment, that Cleveland and Thurman will be elected.

Grand Master Sargent, of the Brotherhood of Locomotive Firemen, is in the southern states, visiting lodges. This organization in the south has been increasing in numbers very rapidly in the last few months.

Frank Sweeney, grand chief of the National Switchmen's association, has returned to his headquarters, and it is probable that for the present the switchmen will accept the terms offered by a majority of the companies, which is an advance in wages but no change in the hours that shall constitute a day's work.

The Brakemen's Brotherhood, at their session at Columbus, O., yesterday, elected the following officers: R. Wilkinson, Peoria, Ill., grand master, re-elected; W. G. Edens, Bucyrus, Ohio, first vice-grand master; M. C. Foster, jr., Ithaca, N. Y., second vice-grand master; and T. T. Slattery, Butte, Mont., third vice-grand master.

The total shipments of flour, grain and provisions east bound from Chicago for the week ending, October 18, were 32,736 tons, against 25,680 for the corresponding week last year. The shipment of flour aggregated 2,822 tons; grain, 23,294 tons; provisions, 6,620 tons. The percentages of the various roads were: Grand Trunk, 18; Michigan Central, 25; Lake Shore, 17.1; Fort Wayne, 20.1; Panhandle, 7.2; Baltimore and Ohio, 4.1; Nickel Plate, 8.5.

A device that enables the engineer, when in his cab, to turn a switch, which can be closed again from the rear of the train, has been invented. It is operated in connection with the "central throw" switch, and consists in a "shoe," which is dropped from the forward and rear trucks. This strikes a crank, which is overthrown and the switch closed or opened, as the case may be. A switch left open carelessly may thus be closed by the locomotive while at high speed, or a train side-tracked quickly in case of danger.

Miss Kate Castleton and her company of comedians come here from Youngstown, Ohio, and go direct to the Chicago opera house, where they play a week's engagement. It will be seen that Miss Castleton plays none but the best houses.

Hon. Leon Baily spoke at Logansport last evening.

Hood's Sarsaparilla cures catarrh by expelling impurity from the blood, which is the cause of the complaint. Give it a trial.

THE MAHOGANY.

How the Boad Stands and Its Chances for Completion.

The Toledo *Bee* says:

W. H. Harris, who was elected vice president of the New York, Mahoning and Western at a recent meeting of the stockholders held in this city, returned yesterday from New York. Mr. Harris says that the affairs of the road are practically unchanged, but that developments are expected to come to a focus in a few days, which will enable the the company to secure funds to pay off all liens and complete the road to Fort Wayne, and that the prospects for the consumation of this work are decidedly flattering. He also says that the officers of the road are doing everything possible to bring about a speedy termination to the unfortunate complications that they have had to contend with. It is about time for the "clamorous creditors" to hold another one of their weekly seances.

It is useless to attempt the cure of any disorder if the blood is allowed to remain impure. Neuralgia and rheumatism are traceable to a disordered condition of the blood, and in numberless cases have been cured by taking a few bottles of Ayer's Sarsaparilla.

Mr. Will Breen returned from Indianapolis yesterday.

Catarrh Cured.

A clergyman, after years of suffering from that loathsome disease, Catarrh, and vainly trying every known remedy, at last found a recipe which completely cured and saved him from death. Any sufferer from this dreadful disease sending a self addressed stamped envelope to Prof. J. A. Lawrence, 88 Warren St., New York City, will receive the recipe free of charge. O13deod4m-weow15t

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle. mar-18-1y

Hon. P. S. O'Rourke will address the people of Fort Wayne on the tariff and other political questions at the Academy of Music Saturday evening at 7:30 p. m. The Railroad Democratic Club will act as escort to the distinguished speaker.

ATTENTION!

The Jeffersonian club will form on Court street, Saturday evening, October 27, 1888, at 7:30, p. m., sharp, to escort the Hon. P. S. O'Rourke to the Academy.

She Tried and Knows.

A leading chemist of New York says: "No plasters of such merit as the Ath-lo-pho-ros Plasters have ever before been produced." They are a novelty because they are not made simply to sell cheap, they are the best that science, skill and money can produce, and will do what is claimed for them. For sprains, aches, weakness, lameness, etc., they are unequaled.

624 Fulton St., Sandusky, O., Nov. 21, '87.
"The Athlophoros Plaster acted like magic. It is the *best* I ever tried and I have used many kinds. Our druggists said "plasters are all about the same" but I don't think so now. I sprained my arm and shoulder in July, and it has been painful since, but it does not pain me at all now Mrs. WILLIS MAGILL.

My Poor Back!

That "poor back" is held responsible for more than its share of the sufferings of mankind. If your dog bites a man who kicks it, do you blame the dog? On the same principle the kidneys utter their protest against nervousness, impure blood, and resulting constipation. These force them to do extraordinary work in ridding the system of the poisons which are the result of effete matter retained in the blood. Then the sufferer says the back aches; the kidneys are diseased. "Not yet;" but they will be unless the nerves are strengthened, the blood purified, and the constipation removed. These are the causes of kidney troubles, and Paine's Celery Compound removes them quickly. With its tonic, purifying, and laxative effect, it also strengthens the weak kidneys, making it almost infallible in curing all diseases of the nerves and kidneys. If your hopes of cure have not been realized, try Paine's Celery Compound; it gives perfect health to all who complain of "their poor backs." *Price $1.00.*

FIRST—We have a very large line of Children's and Misses' Cloaks. The styles are of the latest, the material not of the best—you surely would not expect it, the prices being $1.75, $2.25, $2.75 and $3.50. They are the best we have ever seen for the money; yes, better than we expect to see again at these prices. They will, without doubt, do good service until the girl has outgrown the size.

SECOND—Our stock of Jersey Waists are complete. All the popular colors and all sizes. We believe we can fit every, any woman in the county. The prices range from $1 each to $5 each.

THIRD—We notice many Jersey Jackets offered for sale, the fabrics of which are partly cotton. We tender our patrons an All Wool Jersey Jacket at $5. This for plain garments. Handsomely bound and trimmed jackets from $6 to $9.

FOURTH—We speak of Newmarkets. We do not blush to tell you there is cotton in the make-up of some of these, and why should we? To look at this stock you would expect us to Newmarket the whole of Allen county. Our expectation is to furnish the larger portion of the women wanting such a convenient and popular garment. In this lot you will find beautiful mixtures, striped and of plaid material. For full value of your money inspect hard the "K" quality at $3.97 each.

FIFTH—A few words more, and about Cloth Jackets. Hard to be pleased, indeed, is the taste that cannot be gratified here. The patterns in flecked, stripes, checks and plains are simply elegant. The styles are superb and a perfect fit guaranteed.

SIXTH—We have not forgotten the babies. You will find a large and choice line of suitable, seasonable garments from which to select. The selling figures are short here also—to match the baby. See!

SEVENTH—Seven a perfect number. Perfection is a rarity. You will find it, nearly, in our stock of Seal Plush Garments—perfect in material, perfect in make and finish, perfect in fit. Every possible expectation met in our leading and popular Seal Plush Sacque, "The Mathias." We cannot tell all in this paper. Enough to let you know we have what you may want in a garment we trust you have read.

To the Editor of THE SENTINEL.

We notice that you have taken the liberty of quoting us frequently in last evening's SENTINEL, as well as giving the price of oil. Your statements bear the ear-marks of the original scribe who has been making misstatements concerning us and our business. The article Tuesday states that linseed oil is protected 25 cents per gallon, which is 25 per cent. of the foreign price. This being true, linseed oil was worth, in the foreign markets, about 46 cents per gallon. Now, the books of any wholesale dealer in the city will show that oil has been sold as low as 48 cents per gallon, by the car load, within the last six weeks. So that your 25 cents tax on the consumer, who desires to paint his house, has all disappeared within 2 cents per gallon. And, in order to set the minds of our citizens at rest lest they all go to putting up an oil mill, we will say, that the recent advance in oil was caused by a similar advance in seed, which has advanced from $1.09 to $1.48 per bushel, caused by a short crop of seed. The recent advance in flax is no more remarkable than that which has taken place in wheat or flour, and for the same reasons. Flax seed was worth 85 to 92 cents when oil was sold at 36 cents per gallon two years ago, and this price lost money to every mill that turned a wheel and closed three mills in the west permanently, the owners prefering to call their machinery a total loss rather than continue in the business. We shall expect to see you assailing the flour combination next, with a full compliment of mud batteries, and if you do not, we wish to say right here that you must acknowledge that your attacks on us are purely personal.

Captain White, whom you assail, has done more to break up combinations and bring about free trade and low tariffs on goods among ourselves than all the merchants put together, who have settled within our gates. If the people of this district do not stand by him, it will be base ingratitude, indeed.

We wish to call your attention Mr. Editor, to a few facts explanatory of our reasons for disseminating so many documents bearing on the tariff: In 1872 hides were put on the free list; the farmer was told that he would get more for hides as he would get the markets of the world for the leather. The consumer was told that he would get his boots and shoes a great deal cheaper. What is the result? But two per cent of our entire leather product has gone abroad and the price of calf skins has fallen from fifteen cents per pound to six cents per pound. All other classes of hides have also suffered heavy declines, ranging from 30 to 50 per cent. Has the other prophecy come true? We say emphatically, no, and we do not say so from any theory, but from a plain business experience. Now, what does the Mills bill say to the farmer? "We will put wool on the free list, and fix you just as we have done on hides." (A hide, bear in mind, represents 5 to 10 per cent. of the value of the animal, while wool represents from 25 to 50 per cent. of the value of the sheep.) To the wool dealer, Judge Thurman says: "Go at something else if there is no wool to buy, or go to Australia for it."

Now we do not want to do either if we can help it. We have spent almost a lifetime in this business, and we consider the protection of wool both to the interest of the farmer and the consumer as well as to ourselves, and we believe that the whole, or partial destruction of this industry means hardship to the farmer, as well as to the consumer, for, just as the supply of mutton is reduced, the price will advance, and will have its proportionate effect on all meats. Cheap mutton is what the laborer wants, as well as cheap clothes, and when you advocate free trade, you put him in just the condition his brother laborer in Europe occupies to-day, low wages and dear meat. If you will pardon one further allusion Mr. Editor, we will call your attention to an article in Saturday evening's SENTINEL, bearing on the outrageous taxes levied on the poor common people by the tariff, under the article,

"A PROTECTED DOLLAR'S WORTH."

You will notice that it states that the consumer pays $1.80 for every dollars' worth of salt that he buys. As dealers in salt, we wish to call your attention to the fact that we retail salt at $1.00 per barrel, and wholesale it as low as 85 cents per barrel of 280 pounds, in car lots, where no handling by us is required. Now imagine, if you please, the disgust that is diplayed on the average countenance when you tell the purchaser he is paying 80 per cent. tariff on an 85 cent barrel of salt, and besides all this, the "monopolist" has paid 25 cents per barrel freight on the salt to get it here, and furnished a barrel costing 25 cents to put it in. If you had been smart, Mr. Editor, you would have clubbed that dude when he took the shears to cut out that article for insertion in your paper. The fallacy of all of your arguments are so easily shown by any one conversant with the line of business mentioned, and we we trust now, Mr. Editor, after having shown the people of Fort Wayne that they have a living specimen of a trust in their own midst, and the monsters they are, let us suggest that you enter a combination to work off the canal onto our citizens for a water supply, and also get up a newspaper combination here and at Indianapolis to control the state printing, and after you have accomplished this, put on your robes, and cry to the Lord, and thank Him that you do not belong to a "trust."

We shall be pleased to see all of our old customers, including yourselves and the Indianapolis correspondent, who so kindly wrote us up, at our old stand. "A full line of documents on salt, tariff, etc., constantly on hand."

Very Respectfully,

S. BASH & Co.

COLORED REPEATERS!

Their Attempt to Get in Their Work at New York is Frustrated—Betting on the Election.

Special to THE SENTINEL.

NEW YORK, Oct. 26.—The first arrests in the ranks of the colored repeaters were made yesterday by Captain Reilly, of the Nineteenth precinct. Three arrests have already been made in the neighborhood of Seventh avenue, Twenty-eighth and Twenty-ninth streets and the headquarters of the colored population of the city up town. The names of those arrested are Cousins, Barrett and Johnson. Cousins and Barrett were examined at the Jefferson police court, before Justice Gorman, and committed for trial at the court of general sessions. Their cases will be sent to the grand jury within a day and they will be placed on the calendar of the following day. Captain Reilly in all three cases has secured evidence that will secure conviction.

The Johnson matter will come up for examination to-day at 2 o'clock, at the Jefferson market police court, and there is no doubt that it will result the same as the others. It is harder to find the offenders against the registry laws than heretofore, because the terror inspired by the prompt conviction of Gordon has frightened them badly and caused the imported republicans to leave the town by hundreds. The fact is that most of these men have been closely watched by detectives since their arrival in New York and no small part of the agents trusted by the republican headquarters are perfectly ready to take part in exposing the villianous scheme. District Attorney Fellows two months ago set in motion the machinery of the law to secure a pure and free election and the Hessian hirelings are permitted to come here just as rats are permitted to walk into a trap. The arrangements of the district attorney, United States marshal, Superintendent Murray and Inspector Byrnes are admirable, and everything has worked just exactly as desired. No amount of cunning or corruption can effect the fairness of this election, and the money the republicans have squandered on their Hessian forces, has been thrown away as completely as that they have locked up in bets. On the part of the democrats, the working up of these cases was intrusted to Assemblyman Martin, the sergeant-at-arms of the national democratic committee, who co-operated throughout with Captain Reilly and the police.

The meeting of the county democracy at the Cooper Union last night was a success that will rank with any of the preceding demonstrations of the campaign. The leading speech of the evening was made by Congressman Crain, of Texas, and was devoted exclusively to the discussion of the national issues, particularly the relation of tariff reform to the industries and commerce. Mr. Crain is very much at home in New York, having been a student in St. Francis Xavier college here and lived in the city during several years of his earlier life. His eloquence and the extremely practical character of his remarks greatly pleased his audience.

The republicans have practically run away from betting on the presidential contest. Last evening, at the Huffman house, Mr. John Mullen, of Brooklyn, offered to bet $2,000 to $1,000 that Cleveland would carry New Jersey, and $1,000 to $500 that he would carry New York state, and $2,000 even on the general presidential result. Capt. William M. Conner offered to bet $10,000 to $9,000 on the general result. None of these bets were taken. Mr. Mullen bet with a republican, named Pangburn, $200 to $50 that Hill would be re-elected governor of New York.

A HUSBAND'S LOVE.

A Massachusetts Jury Places Its Value at $30,000.

BOSTON, Oct. 26.—In the suit of Mrs. Myra Beals against Dr. Augustin Thompson, of Lowell, for $50,000 damages for having alienated her husband's affections, the jury brought in a verdict for the plaintiff this morning, awarding her $30,000 damages.

DEATH IN A FIRE.

A Night Watchman Perishes in a Big Fire at Baltimore.

BALTIMORE, Oct. 26.—The packing house of Platt & Co., in the extreme southern part of this city, was partially destroyed by fire early this morning. John Jones, aged sixty-one years, employed as night watchman, was burned to death before help could reach him. The loss on the building and machinery is about $10,000 and is insured.

ATTORNEY GENERAL WEBSTER.

He Continues His Speech in the London Times Case.

LONDON, Oct. 26.—The Parnell commission again listened to Attorney General Webster's presentation of the *Times* case to-day. The speaker continued to recite a catalogue of the outrages supposed to be traceable to the members of the league and then quoted from the speeches of Mr. Dillon and other Parnellites to prove their support of the plan of the campaign.

He dealt in succession with a series of utterances made by Messrs. William O'Brien, Cully, Cox, Kenny and Matthew Harris, to show their sympathy with the outrages, and he intimated his intention to deal at length with the violent orations of the league members made in County Clare during the years of 1885, 1886 and 1887.

Yellow Fever.

NEW YORK, Oct. 26.—Considerable alarm is occasioned over the death, in St. John's hospital, in Brooklyn, of Capt. John Hlard, of yellow fever. The health authorities assert that there is no cause for fear, as every precaution possible to prevent the spread of the disease has been taken. The steamer Carrenzo was immediately taken to the lower quarantine, where she will be thoroughly fumigated.

Judge Thurman.

LIMA, Ohio, Oct. 26.—Judge Thurman and Speaker Carlisle were the central figures in the party that occupied Col. C. L. Brice's private car, as it pulled out of Cincinnati, at 7:45 this morning, in the rain.

Crowds greeted them along the line. At Troy about 300 people cheered the judge.

Death of Chas. Amann.

(Communicated.)

Last night, at half past 1 o'clock, occurred the death of Charles, sod of Mr. and Mrs. Louis Amann, at the residence of his parents, No. 15. East Washington street, at the age of twenty-one years. Charles, who has been in the employ of the Fruit house for a number of years past, and who, by his gentlemanly, genial and kind disposition, has been able to rise from a mere cash boy to one of the most important positions in that vast establishment and who, to his confreres in the store, was known by the appelation of "Smiling Charley," has left by his death a vacuum which it will not be an easy matter to fill. Obedient to his superiors, obliging to his comrades, ever ready to help those whose knowledge of affairs was beneath that which he possessed, his friends will miss him as much as his sorely afflicted parents. To his bereaved parents we will say that He who guides the birds in their southern flight will pour the ever-healing Balm of Gilead into the open rent and to our dear friend Charles we will say a long and last farewell.

Death of a German Editor.

MILWAUKEE, Wis., Oct. 26.—W. W. Coleman, proprietor of "Der Herold," a leading German paper of this city, died this morning at a room in his newspaper office. He was stricken with paralysis while at his desk a few days since. He was fifty-three years of age.

MUST GO TO PRISON!

The Son of the Late General Manager Talmage, of the Wabash, is Convicted of Murder.

ST. LOUIS, Oct. 26.—James Talmage, son of the late A. A. Talmage, general manager of the Wabash railway, was yesterday convicted of murder in the second degree, at Keytesville, Mo., for killing a telegraph operator named C. P. Tidd, one year ago. He was sentenced to 21 years in the penitentiary.

A BRUTE GETS HIS DESERTS.

ITHICA, N. Y., Oct. 26.—Richard Barber was to-day found guilty of murder in the first degree. On the night of the 16th of last March he went to the home of an old couple, named Mason, and during a chat with Mr. Mason, he felled him by blows on the head from behind. Barber then went to Mrs. Mason's bedside and clubbed her to death, afterwards setting fire to the house and burning the body of his victim. The old man escaped from the house but has become insane as a result of his injury.

CITY BONDS SOLD.

J. W. Gilbaugh, of New York, Purchases the New Issue.

This morning, the city officers consummated the sale of the new reissue of the old city bonds to J. W. Gilbaugh, of New York, who pays par for them, with interest and one-eighth per cent. premium.

The guarantee check of $500 given by Harris & Co., of Chicago, has been collected and will be turned into the city treasury. The firm had some bond transactions here and the check was sent to them in lieu of the money. This with the premium and interest make the bond sale very creditable.

SENATOR BAILY.

A Pleasant Compliment for the Speaker This Evening.

The following telegram from Editor Louthain, of the Logansport *Pharos*, is certainly a compliment to Senator Baily, who speaks at the Academy to-night:

LOGANSPORT, Ind., Oct. 25.

To the Editor of THE SENTINEL.

Senator Baily has just made us one of best speeches of this campaign. You should have a large audience of laboring men for him.

B. I. LOUTHAIN,
Editor *Pharos*.

Mr. Baily is one of the brightest young men in the state and was a leader in the last legislature.

A Woman Shoots Herself.

RICHMOND, Ind., Oct. 26.—Mrs. Al Simonds attempted suicide by shooting herself in the breast. The ball has not been found, but she is still alive and seemingly does not suffer a great deal. She was recently returned from the Central insane asylum pronounced cured, and says she did this in a fit of the blues. She went crazy over the loss of a child. Her husband is employed in Col. John F. Miller's suburban place.

Attempted Suicide Over a Love Affair.

ANDERSON, Oct. 25.—Wilson Heagy, a young man of about twenty-five, took poison with suicidal intent last Monday. Disappointment in a love affair is supposed to have been the cause. His recovery is hardly possible. He is a son of Weems Heagy, former treasurer of this county, and resided with his parents a few miles northeast of this city.

WASHINGTON, Oct. 26.—The president will leave here this afternoon for New York, to review the business men's parade, which takes place there to-morrow. He will be accompanied by Mrs. Cleveland, Mrs. Folsom, Colonel Lamont. He will be the guest of Secretary Whitney.

PROBABLE MURDER.

Engineer Wm. Smallwood Murderously Assaulted by Highwaymen.

Last Sunday night Wm. Smallwood, a Nickel Plate engineer, was murderously assaulted by highwaymen at the end of the railroad bridge which crosses the St. Mary's river near Orff's mill. The matter escaped the attention of the police, or was suppressed, although the man lies at death's door and was reported dead last night.

Mr. Smallwood was going to his boarding house, in Nebraska, Sunday evening last and proceeded along the railroad track. At the west end of the St. Mary's river bridge he was leaped upon by three highwaymen, and one of the robbers struck Mr. Smallwood a murderous blow with a coupling-pin.

His one cry for help attracted the attention of the yard men and at their approach the would-be murderers fled, without robbing their victim.

Mr. Smallwood was conveyed to his home and has been unconscious ever since. His skull is probably fractured, and the chances of recovery are largely against him.

His wife arrived to-day from Bellevue and is at his bedside.

Who will apprehend the murderers?

CRUSHED TO A PULP.

An Illinois Brakeman Meets Death in a Wreck and Several Others are Seriously Injured.

BLOOMINGTON, Ill., Oct. 26.—A freight train collided with a passenger train composed of empty coaches, near San Jose, Ill., yesterday. The crews of both engines jumped. Fireman Baum, of the freight train, was caught and crushed to a pulp. Engineer Foot, of the same engine, was pinned under the wreck and badly hurt. The engineer and fireman of the other train was seriously injured, but will recover. Both locomotives and seventy cars were destroyed.

At a meeting of the democrats of the Fourth and Fifth wards last night, it was agreed to have a joint rally, bonfire, and torch light parade Friday evening, Nov. 2, one week from to-day. There will be a parade of all the city clubs through the west end, and a bonfire on the commons on Jefferson street, between Griffith and Broadway. Arrangements are now in progress.

The most remarkable meeting was held at the Christian church, corner of Jefferson and Griffith streets, last night. Many were baptized, and more to follow. Mr. Updike speaks to-night upon "Justification by faith only." Saturday night, "Naiman, the Leper." Sunday night, "The Black God." Song service at 7:30. Preaching at 8 p. m.

The incident in the electric light works whereby Miss Ida Jackson was suspended, has no political significance as General Manager McDonald assures us. The young lady was discharged for going to the Thurman rally, but leave of absence had not been given her and according to rules she lost her place. Mr. Al Brentzerhoff, who lost his position because the young lady was discharged, is a republican. This is the situation.

The pictures which were taken of the Tippecanoe club on the morning previous to their departure for Indianapolis, to participate in the parade held there a week or two ago, have been delivered to the members. It is a fine piece of art and the handsome boys present an attractive appearance in their silk hats and overcoats. The Tippecanoe club is a body of our best young gentlemen, and although they are republicans, we desire to say that the city is proud of them.

FRUIT HOUSE.

No Universal Remedy

has yet been discovered; but, as at least four-fifths of human diseases have their source in **Impure Blood**, a medicine which restores that fluid from a depraved to a healthy condition comes as near being a universal cure as any that can be produced. **Ayer's Sarsaparilla** affects the blood in each stage of its formation, and is, therefore, adapted to a greater variety of complaints than any other known medicine.

Boils and Carbuncles,

which defy ordinary treatment, yield to **Ayer's Sarsaparilla** after a comparatively brief trial.

Mr. C. K. Murray, of Charlottesville, Va., writes that for years he was afflicted with boils which caused him much suffering. These were succeeded by carbuncles, of which he had several at one time. He then began the use of Ayer's Sarsaparilla, and after taking three bottles, the carbuncles disappeared, and for six years he has not had even a pimple.

That insidious disease, **Scrofula**, is the fruitful cause of innumerable complaints, **Consumption** being only one of many equally fatal. **Eruptions, ulcers**, sore eyes, glandular swellings, **weak** and wasted muscles, a capricious appetite, and the like, are pretty sure indications of a scrofulous taint in the system. Many otherwise beautiful faces are disfigured by pimples, eruptions, and unsightly blotches, which arise from impure blood, showing the need of Ayer's Sarsaparilla to remedy the evil.

All sufferers from blood disorders should give Ayer's Sarsaparilla a fair trial,—avoiding all powders, ointments, and washes, and especially cheap and worthless compounds, which not only fail to effect a cure, but more frequently aggravate and confirm the diseases they are fraudulently advertised to remedy.

Ayer's Sarsaparilla,

AWAY with trusts and robber taxes.

VOTE against unnecessary taxes. That is all the democrats ask.

REPUBLICAN intimidation may silence men, but it will not win their votes.

EVERY man who votes the republican ticket, votes to perpetuate a system of unnecessary taxation that robs him of the fruits of his labor.

A SYSTEM of cruel intimidation is in vogue in some of the Fort Wayne manufactories, not by the proprietors or managers, but by petty republican bosses.

SENATOR BAILY, who is to address the citizens of Fort Wayne to-night, is one of the representative labor leaders of the state and deserves a respectful hearing.

JUDGE GRESHAM wraps himself in his sacred judicial robes and mildly remarks: "I am for Harrison." The judge, like the *Gazette*, is endeavoring to keep up appearances.

THE workman who paid thirty-six cents a gallon for linseed oil to mix with his paint a year ago and pays sixty-five cents a gallon to-day, will understand what a trust is.

OTTO STEIN, whose home is at Lafayette, Ind., and a brilliant journalist, but a murderer, forger, and all around scamp, played a Baltimore physician for $250 the other day. This young man, although of good family, is a consumate scoundrel.

THE Toledo natural gas plant has almost paid for itself under a price scedule similar to the one Fort Wayne is now asked to accept. The cost of gas in the pending ordinance is beyond all reason and the stockholders ought to realize the fact.

HON. P. S. O'ROURKE will expound tariff doctrine at the Academy to-morrow night and unquestionably he will set at rest the republican boast that he and his friends are secretly opposing Judge McClellan. There never was any sham or pretense about Mr. O'Rourke's politics. He is either for or against a man.

THE Corunna *Headlight* has the following worthy notice concerning the democratic candidate for congress: "Judge Charles A. O. McClellan commenced life at the bottom of the ladder, and like many other poor boys under the free and unrestrained privileges of our own glorious institutions, by persistent energy, unremitting toil and frugality, he has worked himself up to an honorable place among his colleagues. A position that he could not have successfully attained without those ennobling attributes that commend him to the voters of the Twelfth district."

And Captain White defended the linseed oil trust. Here is a problem for the Knights of Labor to solve: "Will they vote to return to congress a champion of trusts and monopolies?"

GOING BACK TO ORIGINAL AMERICANISM.

"REDSKIN LIKE FREE FIRE WATER,
REDSKIN NO LIKE CLOTHES."

(FOR FURTHER PARTICULARS READ THE SENATE TARIFF BILL.)

THE TARIFF AND TRUSTS.

It is stoutly maintained by all high tariff men—except perhaps Mr. Blaine—that the tariff has nothing to do with trusts.

What then is the true relation of a high tariff to these trade combinations? There is a very close connection between the two things and we want to point it out so that every one may understand it.

What is the object of a protective tariff? Any protectionist will tell you that its object is to shut out foreign competition. Our manufacturers can not compete with foreigners, so we have to have protection against these same foreigners. Of course, the higher the tariff, the more complete is th protection. And if the foreigner be absolutely shut out of the home market, the protection is perfect. That is the whole theory of protection.

Now then what is the object of the trust? Identically the same thing. A number of gentlemen engaged in any given industry, get together and resolve that competition is a bad thing; that it is cutting prices down to a desperately low figure, and so ruining trade, and they resolve therefore that they will not compete any more, but will "combine" so that they can limit production and maintain prices. So they form a trust.

But they find a large part of their work done for them already. The tariff is so high that foreign competition is quite impossible. They don't have to look out for that. A kind government has done that work for them. So their task is comparatively easy. It is simply a matter of agreement among themselves. They just have to resolve to quit competing, and the thing is done. They control the whole supply in this country, and a tariff running all the way from some 25 to 180 per cent. makes it rather difficult for any one to get anything in from abroad, and allows a truly liberal latitude for them to manipulate prices in.

Suppose there were no tariff at all on these "trusted" articles, Isn't it clear that the trust business would be a great deal more difficult to carry on? With the supplies of the world to draw on, it would not be nearly so easy to "limit production or to maintain prices." There would be danger of competition from every quarter. The "combine" would have to be very large, and it would have to be international. It would no longer be a little matter of domestic competition to be guarded against, with all other possible competition killed off by law, but there would, as we have said, be a world-wide competition to be taken into account. It is conceivable that the thing could be done, but as we have said, it would be very difficult of accomplishment; the organization when formed would be large and unwieldy, and its life would be extremely uncertain. Freedom is the deadliest foe that monopoly can have. A conspiracy for plunder or murder to be effective, must have but few concerned in it.

It is just as though there were a dozen men shut up in a room to which outsiders could not obtain access. If four of the strongest of these men had something which the others could not do without, it is clear that, by acting together they could exact what terms they pleased from the weaker ones. They would have a most beautiful monopoly; the "trust would be a dazzling success." If now one of the sufferers should knock a hole in the wall, and thus open up communication with hundreds of people outside who could supply his wants, what would become of the "trust?"

That is what we want to do—knock a few holes in our high tariff wall; and that it what Senator Sherman meant, when he suggested that the way to get at the trusts was through our revenue laws. The senator is right.

The tariff, then, whatever else it may or may not do, clearly protects trusts.

MAKE NO MISTAKE—If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other. Hood's Sarsaparilla is a peculiar medicine, possessing, by virtue of its peculiar combination, proportion and preparation, curative power superior to any other article of the kind before the people. For all affections arising from impure blood or low state of the system it is unequalled. Be sure to get Hood's.

The experience of years furnishes the most convincing evidence that thousands of lives are annually saved by the use of Ayer's Cherry Pectoral. It speedily cures all affections of the throat, bronchial tubes and lungs.

W. H. Williams, traveling freight agent of the Atchinson, Topeka and Santa Fee railroad, was in the city yesterday.

The Electric Light and Power company are making arrangements for the erection of their new building near Rudisill's dam.

The Wabash is expecting to take big crowds to the republican rally at Peru next Tuesday. The fare for the round trip will be $1.15.

A large number of the shopmen will turn out to-night at the Acedemy to hear State Senator Bailey speak on the issues of the day.

Mr. Chas. H. Mixer, formerly of this city, but now traveling passenger agent of the Vandalia, with headquarters at Terre Haute, was in the city yesterday.

A number of the railroad men in the city have expressed their intention of going to Lima this afternoon to attend the big democratic rally there this evening.

There are 28,000 railroad men in the state of Iowa and the latest news from that great republican stronghold is that its electoral vote will be cast for Cleveland and Thurman.

Joseph Nichter, of the Wabash shops, has made a wager of a new hat with Henry Poyser, machinist in the same establishment, that Cleveland and Thurman will be elected.

Grand Master Sargent, of the Brotherhood of Locomotive Firemen, is in the southern states, visiting lodges. This organization in the south has been increasing in numbers very rapidly in the last few months.

Frank Sweeney, grand chief of the National Switchmen's association, has returned to his headquarters, and it is probable that for the present the switchmen will accept the terms offered by a majority of the companies, which is an advance in wages but no change in the hours that shall constitute a day's work.

The Brakemen's Brotherhood, at their session at Columbus, O., yesterday, elected the following officers: R. Wilkinson, Peoria, Ill., grand master, reelected; W. G. Edens, Bucyrus, Ohio, first vice-grand master; M. C. Foster, jr., Ithaca, N. Y., second vice-grand master; and T. T. Slattery, Butte, Mont., third vice-grand master.

The total shipments of flour, grain and provisions east bound from Chicago for the week ending, October 18, were 32,736 tons, against 25,680 for the corresponding week last year. The shipment of flour aggregated 2,822 tons; grain, 23,294 tons; provisions, 6,620 tons. The percentages of the various roads were: Grand Trunk, 18; Michigan Central, 25; Lake Shore, 17.1; Fort Wayne, 20.1; Panhandle, 7.2; Baltimore and Ohio, 4.1; Nickel Plate, 8.5.

A device that enables the engineer, when in his cab, to turn a switch, which can be closed again from the rear of the train, has been invented. It is operated in connection with the "central throw" switch, and consists in a "shoe," which is dropped from the forward and rear trucks. This strikes a crank, which is overthrown and the switch closed or opened, as the case may be. A switch left open carelessly may thus be closed by the locomotive while at high speed, or a train side-tracked quickly in case of danger.

Miss Kate Castleton and her company of comedians come here from Youngstown, Ohio, and go direct to the Chicago opera house, where they play a week's engagement. It will be seen that Miss Castleton plays none but the best houses.

Hon. Leon Baily spoke at Logansport last evening.

Hood's Sarsaparilla cures catarrh by expelling impurity from the blood, which is the cause of the complaint. Give it a trial.

THE MAHOGANY.

How the Road Stands and Its Chances for Completion.

The Toledo *Bee* says:

W. H. Harris, who was elected vice president of the New York, Mahoning and Western at a recent meeting of the stockholders held in this city, returned yesterday from New York. Mr. Harris says that the affairs of the road are practically unchanged, but that developments are expected to come to a focus in a few days, which will enable the the company to secure funds to pay off all liens and complete the road to Fort Wayne, and that the prospects for the consummation of this work are decidedly flattering. He also says that the officers of the road are doing everything possible to bring about a speedy termination to the unfortunate complications that they have had to contend with. It is about time for the "clamorous creditors" to hold another one of their weekly seances.

It is useless to attempt the cure of any disorder if the blood is allowed to remain impure. Neuralgia and rheumatism are traceable to a disordered condition of the blood, and in numberless cases have been cured by taking a few bottles of Ayer's Sarsaparilla.

Mr. Will Breen returned from Indianapolis yesterday.

Catarrh Cured.

A clergyman, after years of suffering from that loathsome disease, Catarrh, and vainly trying every known remedy, at last found a recipe which completely cured and saved him from death. Any sufferer from this dreadful disease sending a self addressed stamped envelope to Prof. J. A. Lawrence, 88 Warren St., New York City, will receive the recipe free of charge. O13deod4m-weow15t

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle.

A leading chemist of New York says: "No plasters of such merit as the Ath-lo-pho-ros Plasters have ever before been produced." They are a novelty because they are not made simply to sell cheap, they are the best that science, skill and money can produce, and will do what is claimed for them. For sprains, aches, weakness, lameness, etc., they are unequaled.

My Poor Back!

That "poor back" is held responsible for more than its share of the sufferings of mankind. If your dog bites a man who kicks it, do you blame the dog? On the same principle the kidneys utter their protest against nervousness, impure blood, and resulting constipation. These force them to do extraordinary work in ridding the system of the poisons which are the result of effete matter retained in the blood. Then the sufferer says the back aches; the kidneys are diseased. "Not yet;" but they will be unless the nerves are strengthened, the blood purified, and the constipation removed. These are the causes of kidney troubles, and Paine's Celery Compound removes them quickly. With its tonic, purifying, and laxative effect, it also strengthens the weak kidneys, making it almost infallible in curing all diseases of the nerves and kidneys. If your hopes of cure have not been realized, try Paine's Celery Compound; it gives perfect health to all who complain of "their poor backs." *Price $1.00.*

In the Lead for Twenty-five Years and More,

As leaders, we would have a few seasonable words with you in regard to seasonable goods.

FIRST—We have a very large line of Children's and Misses' Cloaks. The styles are of the latest, the material not of the best—you surely would not expect it, the prices being $1.75, $2.25, $2.75 and $3.50. They are the best we have ever seen for the money; yes, better than we expect to see again at these prices. They will, without doubt, do good service until the girl has outgrown the size.

SECOND—Our stock of Jersey Waists are complete. All the popular colors and all sizes. We believe we can fit every, any woman in the county. The prices range from $1 each to $5 each.

THIRD—We notice many Jersey Jackets offered for sale, the fabrics of which are partly cotton. We tender our patrons an All Wool Jersey Jacket at $5. This for plain garments. Handsomely bound and trimmed jackets from $6 to $9.

FOURTH—We speak of Newmarkets. We do not blush to tell you there is cotton in the make-up of some of these, and why should we? To look at this stock you would expect us to Newmarket the whole of Allen county. Our expectation is to furnish the larger portion of the women wanting such a convenient and popular garment. In this lot you will find beautiful mixtures, striped and of plaid material. For full value of your money inspect hard the "K" quality at $3.97 each.

FIFTH—A few words more, and about Cloth Jackets. Hard to be pleased, indeed, is the taste that cannot be gratified here. The patterns in flecked, stripes, checks and plains are simply elegant. The styles are superb and a perfect fit guaranteed.

SIXTH—We have not forgotten the babies. You will find a large and choice line of suitable, seasonable garments from which to select. The selling figures are short here also—to match the baby. See!

SEVENTH—Seven a perfect number. Perfection is a rarity. You will find it, nearly, in our stock of Seal Plush Garments—perfect in material, perfect in make and finish, perfect in fit. Every possible expectation met in our leading and popular Seal Plush Sacque, "The Mathias." We cannot tell all in this paper. Enough to let you know we have what you may want in a garment we trust you have read.

The Logansport *Journal* says: "Joseph Cox, the first patient admitted to Long Cliff hospital, has been pronounced entirely cured and was discharged from custody yesterday. He at once began to improve, and in time the attendants and saner patients became attached to him because of his good and genial qualities. Meanwhile his family has moved to Fort Wayne, to which place Mr. Cox went yesterday. He has a position with the Wabash railroad."

TO the EDITOR OF THE SENTINEL.

We notice that you have taken the liberty of quoting us frequently in last evening's SENTINEL, as well as giving the price of oil. Your statements bear the ear-marks of the original scribe who has been making misstatements concerning us and our business. The article Tuesday states that linseed oil is protected 25 cents per gallon, which is 25 per cent. of the foreign price. This being true, linseed oil was worth, in the foreign markets, about 46 cents per gallon. Now, the books of any wholesale dealer in the city will show that oil has been sold as low as 48 cents per gallon, by the car load, within the last six weeks. So that your 25 cents tax on the consumer, who desires to paint his house, has all disappeared within 2 cents per gallon. And, in order to set the minds of our citizens at rest lest they all go to putting up an oil mill, we will say, that the recent advance in oil was caused by a similar advance in seed, which has advanced from $1.09 to $1.48 per bushel, caused by a short crop of seed. The recent advance in flax is no more remarkable than that which has taken place in wheat or flour, and for the same reasons. Flax seed was worth 85 to 92 cents when oil was sold at 36 cents per gallon two years ago, and this price lost money to every mill that turned a wheel and closed three mills in the west permanently, the owners prefering to call their machinery a total loss rather than continue in the business. We shall expect to see you assailing the flour combination next, with a full compliment of mud batteries, and if you do not, we wish to say right here that you must acknowledge that your attacks on us are purely personal.

Captain White, whom you assail, has done more to break up combinations and bring about free trade and low tariffs on goods among ourselves than all the merchants put together, who have settled within our gates. If the people of this district do not stand by him, it will be base ingratitude, indeed.

We wish to call your attention Mr. Editor, to a few facts explanatory of our reasons for disseminating so many documents bearing on the tariff: In 1872 hides were put on the free list; the farmer was told that he would get more for hides as he would get the markets of the world for the leather. The consumer was told that he would get his boots and shoes a great deal cheaper. What is the result? But two per cent of our entire leather product has gone abroad and the price of calf skins has fallen from fifteen cents per pound to six cents per pound. All other classes of hides have also suffered heavy declines, ranging from 30 to 50 per cent. Has the other prophecy come true? We say emphatically, no, and we do not say so from any theory, but from a plain business experience. Now, what does the Mills bill say to the farmer? "We will put wool on the free list, and fix you just as we have done on hides." (A hide, bear in mind, represents 5 to 10 per cent. of the value of the animal, while wool represents from 25 to 50 per cent. of the value of the sheep.) To the wool dealer, Judge Thurman says: "Go at something else if there is no wool to buy, or go to Australia for it."

Now we do not want to do either if we can help it. We have spent almost a lifetime in this business, and we consider the protection of wool both to the interest of the farmer and the consumer as well as to ourselves, and we believe that the whole, or partial destruction of this industry means hardship to the farmer, as well as to the consumer, for, just as the supply of mutton is reduced, the price will advance, and will have its proportionate effect on all meats. Cheap mutton is what the laborer wants, as well as cheap clothes, and when you advocate free trade, you put him in just the condition his brother laborer in Europe occupies to-day, low wages and dear meat. If you will pardon one further allusion Mr. Editor, we will call your attention to an article in Saturday evening's SENTINEL, bearing on the outrageous taxes levied on the poor common people by the tariff, under the article,

"A PROTECTED DOLLAR'S WORTH."

You will notice that it states that the consumer pays $1.80 for every dollars' worth of salt that he buys. As dealers in salt, we wish to call your attention to the fact that we retail salt at $1.00 per barrel, and wholesale it as low as 85 cents per barrel of 280 pounds, in car lots, where no handling by us is required. Now imagine, if you please, the disgust that is displayed on the average countenance when you tell the purchaser he is paying 80 per cent. tariff on an 85 cent barrel of salt, and besides all this, the "monopolist" has paid 25 cents per barrel freight on the salt to get it here, and furnished a barrel costing 25 cents to put it in. If you had been smart, Mr. Editor, you would have clubbed that dude when he took the shears to cut out that article for insertion in your paper. The fallacy of all of your arguments are so easily shown by any one conversant with the line of business mentioned, and we we trust now, Mr. Editor, after having shown the people of Fort Wayne that they have a living specimen of a trust in their own midst, and the monsters they are, let us suggest that you enter a combination to work off the canal onto our citizens for a water supply, and also get up a newspaper combination here and at Indianapolis to control the state printing, and after you have accomplished this, put on your robes, and cry to the Lord, and thank Him that you do not belong to a "trust."

We shall be pleased to see all of our old customers, including yourselves and the Indianapolis correspondent, who so kindly wrote us up, at our old stand. "A full line of documents on salt, tariff, etc., constantly on hand."

Very Respectfully,

S. BASH & CO.

AN AWFUL CRIME.

Three Tramps Attack and Mutilate an Adams Township Farmer.

The particulars of a brutal assault on an Adams township farmer, have just come to light.

Last Tuesday, Lip Bender, a young man, was engaged in cutting timber on his father's farm. Three negro tramps came on him unawares, and after taking from him $1, all the money he had, cut and mutilated his person in a nameless manner.

The fellow made his way home and Dr. Smith, of Hoagland, dressed his wounds.

In response to a telegram Captain Diehl arrested two negroes in this city, but had to release them for lack of evidence.
